WORK EXPERIENCE

SD Solutions I.T. Outsourcing, Inc.

November 2025 – April 2026

Project Manager / Quality Assurance Intern

- Performed QA testing for HRIS and TAMS modules, including attendance, DTR, and shift schedule scenarios
- Assisted in User Acceptance Testing (UAT) and validated system features before deployment
- Verified and validated 200+ ECN records, ensuring data accuracy and system consistency
- Identified, documented, and reported bugs and system issues to support debugging and resolution
- Conducted post-deployment testing to ensure system stability and functionality in production
- Collaborated with cross-functional teams to drive sprint momentum, ensuring transparent tracking of deliverables and fast resolution of project impediments.

Quezon City Hall - SK Federation

June 2023 – December 2023

District Coordinator

- Coordinated community development and outreach activities across District 1, assisting in local government programs and public service initiatives
- Facilitated communication between district offices, barangay representatives, and local residents for smooth project implementation

PROJECTS

Waste Disposal Management and Information System with Prescriptive Analytics for the City of Manila

- Conducted end-to-end QA testing for a web system, ensuring functionality, performance, and usability.
- Executed functional, regression, integration, and accessibility testing while creating test cases and tracking defects.
- Improved system quality by validating enhancements, verifying bug fixes, and supporting a reliable user experience.
